

## Event programme

# CRC Registration Workshop and Masterclass

9<sup>th</sup> June 2010 – St Pierre Hotel, Barnsley Road, Newmillerdam,  
Wakefield, WF2 6QG

## Who should attend?

This CRC event will concentrate on the practical aspects of CRC registration during the morning, and give the longer term insight during the afternoon. It will cover complex issues such as CCA exemption, group responsibilities, allocation of energy between landlords and tenants, and the identification of relevant energy supplies. It is expected to be of interest to anybody with responsibility for compliance with CRC legislation, but especially those with responsibility for registration. Registration needs to be completed by the end of September 2010 for Phase 1 and by the end of September 2011 for Phase 2.

## Why attend?

This CRC event is designed to provide everything you need to ensure successful registration for CRC, along with any CCA exemptions, as well as providing an insight into the future risks, opportunities and direction of the CRC Energy Efficiency Scheme after registration closes on 30<sup>th</sup> September 2010.

With CRC expected to impact all companies in the chemical sector in some way, this event will help your understanding of the scheme and the registration process. It will cover the actions needed to obtain continued exemption as a full participant, and the obligations that will remain even after any exemptions are granted.

At this event the morning session will be devoted to the practical elements of CRC, the scheme rules and registration. The afternoon will build on this practical workshop approach and then look forward into a future with CRC. With the workshop part of this event supported by the Environment Agency, and chemical sector experience of CRC provided by CIA, this event really does aim to be a "Masterclass".
